

A scenic view of a lake at sunset. The sky is filled with soft, colorful clouds in shades of orange, pink, and blue. The sun is low on the horizon, casting a warm glow over the water. The lake's surface is calm, reflecting the colors of the sky. In the foreground, a person is standing on a rocky shore, fishing. They are wearing a dark shirt and shorts. The surrounding area is lush with green trees and foliage. The overall atmosphere is peaceful and serene.

## 2025 Town Guide & Calendar

# Welcome to Wethersfield

Mayor Ken Lesser

Welcome to 2025! I am very excited about the new year. It will be a year filled with new experiences, new challenges, and great possibilities. I am so hopeful and optimistic about Wethersfield's future! I would like to provide a quick recap on some highlights from 2024, and provide my vision for 2025.

In 2024, we had so many wonderful events that our whole community got to enjoy. These events include: Holidays on Main, The Keane Foundation's Cove Side Carnival, Porchfest, Scarecrows on Main, Bikes on Main and for the first time a Celebrate Wethersfield event was held on the Silas Deane Highway. These great events are part of the fabric of our community.

As I look to 2025, I see opportunities all around. We will continue to capitalize on our unique history as we get closer to our country's 250th birthday. I am grateful to live in this wonderful Town, and proud to serve as its Mayor. Our people are kind, friendly, and have a tremendous sense of pride in Wethersfield. I feel that pride and warm spirit all over Town, and I am grateful for it.

I know 2025 will be a great year for Wethersfield, and I know we will all rein in the New Year with enthusiasm and hope.

# CONNECTICUT STORMWATER MANAGEMENT REQUIREMENTS

Residents should be aware the Connecticut Department of Energy and Environmental Protection (DEEP) stormwater permit for municipal separate storm sewer systems (MS4s) requires the Town of Wethersfield to reduce the amount of stormwater that enters our storm system.

## What is stormwater?

Stormwater is runoff that is generated by rainfall on impervious surfaces like asphalt, concrete or buildings.

## Why is stormwater a problem?

As urban areas expand, these impervious surfaces affect an important part of the water cycle: they send stormwater directly into nearby streams untreated, or in some cases into a combined sewer system, where the extra volume can cause overflows of raw sewage into local waters.

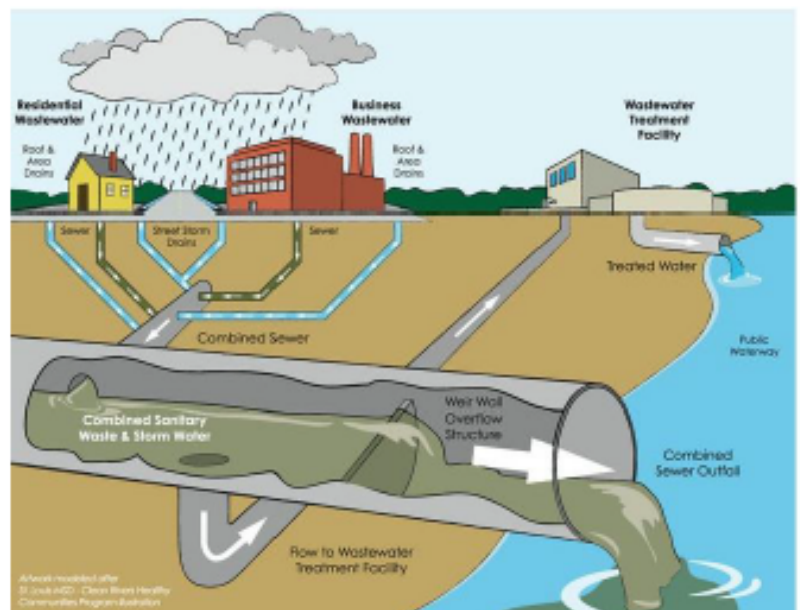

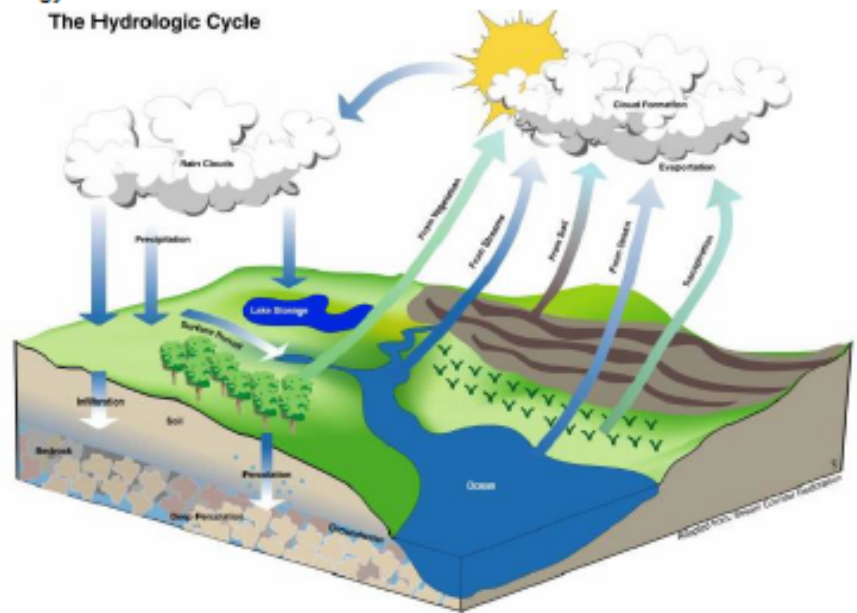

When rain falls on hard surfaces like rooftops, driveways, parking lots and roadways it runs over those areas and in urbanized areas often off into a storm drain. This is great for preventing flooding, but has a hidden impact on water quality. When rain runs off/over hard surfaces it picks up various pollutants along the way (excess fertilizer, oil, brake dust, sand, salt, etc.) and carries them with it into our storm drains which empty directly into your local stream, pond, river or the ocean. Nutrients like phosphorus and nitrogen can cause algae blooms when they enter streams, ponds and salt water estuaries like the Long Island Sound. When algae die, oxygen is depleted in waters, which can impact other aquatic life such as fish. Also, high bacteria levels in stormwater (from pet waste and combined sewer overflows) can result in beach and shellfish bed closures.

## So, what can be done?

Under the federal Clean Water Act, states establish a program (the MS4 General Permit) that regulates how municipalities (and institutions) manage their stormwater to help reduce the number of pollutants being carried into our water bodies. For more information, check out the [MS4 Guide](https://nemo.uconn.edu/ms4/) at <https://nemo.uconn.edu/ms4/>.

There are variety of green stormwater treatment approaches that can reduce the impact of stormwater runoff. Techniques such as pervious pavements, rain gardens, green roofs, and stormwater planters all help to reduce the amount of stormwater that enters local waters. For more information, check out our [What is GSI/LID](https://nemo.uconn.edu/ms4/tools/) page at <https://nemo.uconn.edu/ms4/tools/>.

Residents can review the MS4 Annual Reports at the Engineering Department Office located on the second floor of Town Hall or on the Engineering Department page of the Town website in mid-February of each year. Residents can and are encouraged to provide comments on the report prior to its April 1st filing date. Additional information regarding stormwater management and the Town's Stormwater Management Plan can be found at [www.wethersfieldct.gov](http://www.wethersfieldct.gov) under the Engineering Department webpage.

# PHYSICAL SERVICES

## TRANSFER STATION

100 MARSH STREET

HOURS: M & F 9am - 2:45pm | SAT: 8am - 3:45pm

Physical.Services@WethersfieldCT.gov

PERMIT REQUIRED (except to pick up mulch or drop off leaves)

Rates & Fees available on website:

## SNOW REMOVAL

### STREETS & SIDEWALKS

- It is the Town & State responsibility to clear snow from streets and make them passable.
- Property Owners are responsibly to clear snow from side-walks within 24 hours after storm ends.

### FIRE HYDRANTS

- Property owners are responsible for clearing area around fire hydrant within 24 hours after a storm ends
- Accumulation must be minimum of 4 inches below lowest outlet
- Clear a radius of 3 feet from center of hydrant and 3 foot wide path to street

### MAILBOXES—DISPUTE RESOLUTION

- Box must be securely fastened to a sturdy post, sufficiently anchored in ground to resist impact of plowed snow
- Box should be at least nine(9) inches from curb to edge of pavement to prevent contact with snowplow. Bottom of mailbox should be between 42"-48" from road surface
- Owner will be reimbursed only when Town's snowplow is found to have made direct impact with mailbox, not when box is knocked over by snow or slush pushed by plow
- If determined that box was struck by Town plow, Town will reimburse owner \$30 for post and \$20 for mailbox. Town does not repair or replace mailboxes

# Economic Development & Improvement Commission

Wethersfield has positioned itself to be one of the strongest CT towns in support of current and new business, in part, by developing and implementing well received loan and grant programs. The programs are designed to stimulate development and attract new business to the town and developers and business owners have taken notice.

The town continues to be recognized by various travel sites as one of the best places to visit and live. The Main Street section of Old Wethersfield has become a true national destination, and the State of CT and Hallmark channel launched the CT Christmas Movie Trail in Wethersfield in November drawing national attention to us!

We encourage all to **shop, eat and hire local!**

**Wethersfield is a great place to work, live and play!**

# Tourism & Cultural Commission

## ABOUT THE PHOTOGRAPHY

The photographs throughout this calendar are all from the 2024 Wethersfield Tourism & Cultural Commission Community Photo Contest. They capture the natural beauty, history, landscapes, events, architecture and people living, working, and enjoying everything the Wethersfield community offers. Professional and amateur photographers of any age are invited to submit photos. Look for the announcement of the annual contest. If you have any questions or would like more information, please contact us:

The Tourism & Cultural Commission (formerly Heritage Commission) welcomes residents and visitors to our community. Our stakeholders: Webb Deane Stevens Museum, Wethersfield Historical Society, Old Wethersfield Shopkeepers, Wethersfield Art Academy, the Great Meadows Conservation Trust, Wethersfield Chamber of Commerce, Economic Development & Improvement Commission, the Village Improvement Association, and the community at large continue to collaborate in all fields of culture and arts making Wethersfield a sought-after community.

Take a walk, ride a bike, stop at one of our local museums, eat and shop locally as you explore Wethersfield and  
*Make Your Day Historic!*
