Nature Center

COMMUNITY RAIN BARREL PROGRAM / FUNDRAISER

Help support Wethersfield's **Eleanor Buck Wolf Nature Center**, conserve water and help the environment all at the same time. Install a rain barrel to collect natural rainwater and use it to water your gardens instead of turning on that costly faucet.

All proceeds are used by the **Friends** to directly support programs, events and physical improvements at the Nature Center. Come see the display inside or the rain barrels set up in the gardens behind the nature center where volunteers raise some of the food that feeds our animals.

60 Gallon Rain Barrel - \$130 each

- Heavy duty barrel, 39" tall by 24" wide
- About 20 pounds empty
- Spigot for standard garden hose attachment
- Overflow fitting and Drain plug(s)
- Screw-on cover with insect screen

Rain Water Diverter - \$25 each

The downspout diverter is easy to attach to your existing downspout to capture more rain, faster. Delivers rain water over & into your rain barrel.

The Friends maintains a limited supply of rain barrels and diverters throughout the year. Check with us and you may be able to pick yours up right away. Send us an email at info@friendsofebwnaturecenter.org.
